INTRODUCTION OF “APE VISION LLP” (Who we are?)

INTRODUCTION OF AVLLP

FOR ASSOCIATION WITH CLIENTS TO PROVIDE PEMS-CLA SERVICES

AVLLP is a Start-up company registered as MSME with Government of India (MoCA).

AVLLP is a team of highly experienced professional & domain specialists in power plant projects (both conventional & renewables) and Other industries like, Water resources, Environment-related (FGD, MSW & WtE), Infrastructure, Green Hydrogen / Electrolyzer, BESS, etc for smooth and successful execution of the Complete Power plant project involving different packages.

AVLLP offers Project Execution Management and Contract-legal advisory Services (PEMS-CLA) in the referred industries and packages to ensure successful execution.

AVLLP offers bidding assistance to select qualified, reputed contractors for successful execution, preparation of bids, cost estimation, post-submission assistance till award of the order and signing of contract.

INTRODUCTION OF AVLLP

FOR ASSOCIATION WITH CLIENTS TO PROVIDE PEMS-CLA & BIDDING SERVICES

AVLLP also has associated with it Detail-engineering consultants, package suppliers and relevant sub-contractors, well experienced and qualified to take up different packages and engineering works in the power plants at most competitive rates.

AVLLP also has associated with it highly experienced Law-firm to provide contract-legal advisory and preparatory services during bidding and execution to ensure strong presence during project execution and to provide litigation services in the unfortunate situations when these have to be pursued.

AVLLP has also associated with it Human Resource company to source required human resources for a defined specific period of the project. These range from managers, technical, supervisory staffs, skilled & unskilled labors for a defined period of the project, as needed.

APE VISION LLP
Your success is our mission

AVLLP BACKGROUND

Ape Vision LLP (**AVLLP**) has been formed, carving out from **Ace Premier Enterprises (APE)**, a partnership company formed in **February 2020**). APE has been providing consultancy in similar fields till the time Conventional thermal power plants were not being implemented and **Renewables, FGD**, etc, only were in focus.

With conventional power plants back in reckoning with a target to execute **80,000 MW in the next 10 years**, going highly aggressive since last year, we decided to form **AVLLP** to work in **BOP**, its packages and related areas..

Colleagues from this industry have been serving different organizations ever since conventional power plants were literally put to halt. With change in stand by the government, many of us have decided to come together and help organizations capable of doing **BOP** to bag and execute them as per schedule with secured margins.

Presently, many of us had spread out to serve renewables, **FGD, Green Hydrogen, BESS, Semi-conductors**, etc, even though the expertise remained in **BOP** and **BTG** being more complex needing expertise. Getting an opportunity many of us have decided to come together and support country's aggressive objective.

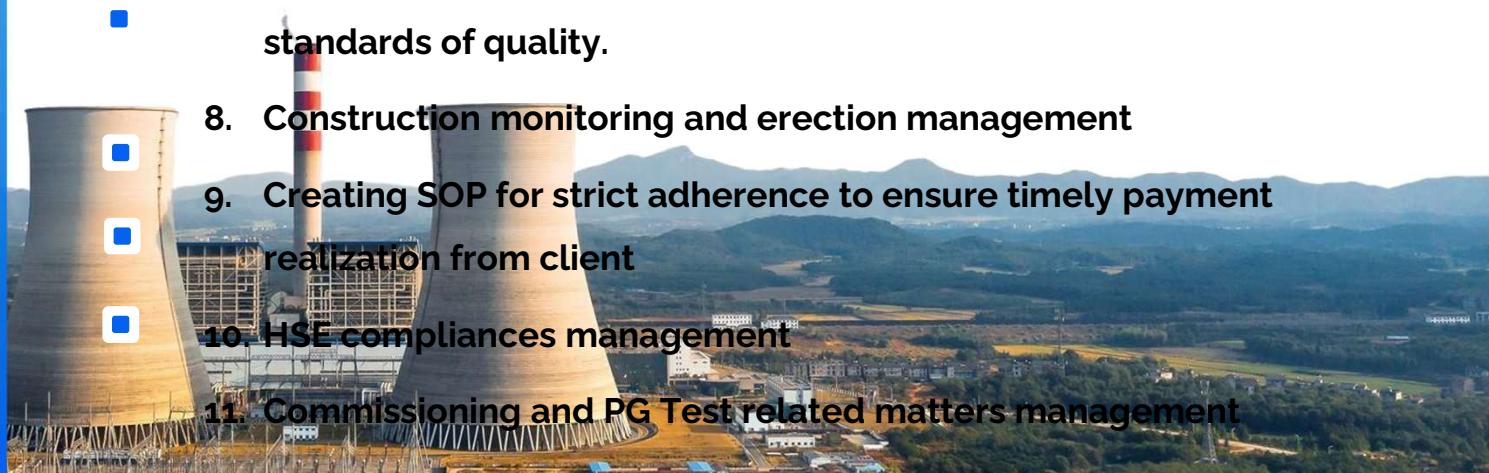

INTRODUCTION OF OFFERED SERVICES

(What we do?)

EXECUTIVE SUMMARY

- Our services are aimed at ensuring timely execution of the project within the allocated cost with quality and total HSE compliances .
- These are aimed at increasing value for shareholders and stakeholders of the company.
- Whole exercise from "Initiation to Commissioning" is taken up under different associated verticals.
- SOP of all verticals and their interface actions are prepared and put in place to achieve targeted results.

- 1. Project Initiation and Kick-off related actions
- 2. Planning, Scheduling, Tracking and Catch-up plans
- 3. Contract management with Legal advisory, hand-holding and Progress reporting
- 4. Project commercials, like Billing Breakup (BBU), Cashflow management, etc
- 5. Design & Engineering related matters
- 6. Procurement related actions; Pre-award, award and post award
- 7. Quality plan & inspection and adherence to the highest standards of quality.
- 8. Construction monitoring and erection management
- 9. Creating SOP for strict adherence to ensure timely payment realization from client
- 10. HSE compliances management
- 11. Commissioning and PG Test related matters management

1. PROJECT INITIATION & KICK-OFF ACTIONS

Assistance in Contract signing.

- Preparation and signing of Communication protocol among different stakeholders and contractors
- Kick-off meeting agenda points preparation assistance
- Kick-off meeting MOM and action points preparation with action plan along with close monitoring for actions.
- Ensuring urgent actions on mandatory actions like submission of PBG, ABG (if advance is needed), L2 schedule, BBU, etc and their review and approval . for timely release of advance .
- Ensuring preparation of Organization chart of the Project for the company and integration of Company management, resources from AVLLP, deployment of manpower by the company .

2. PROJECT PLANNING, SCHEDULING, TRACKING & CATCH-UP PLANS

- Development of Project Execution Plan i.e. L1, L2 & L3 on Primavera.**
- Arranging detailed resources allocation on Primavera by the contractor, to ensure its sufficiency for timely execution**
- Development of regular tracking mechanism using Primavera**
- Standardization of Progress Monitoring, Reporting and working on Catch-up plans to ensure project remains on track. Flagging the events of delay for internal and external attention for timely attention.**
- Identifying risks by carrying out forensic analysis of the schedule and identification of critical paths along with judicious working on floats to keep control on schedule.**
- To work on delay analysis for Time extension requests & protection from LD and Work on extra claims, as needed.**

3. CONTRACT MANAGEMENT, LEGAL ADVISORY SERVICES AND PROGRESS REPORTING, DELAY ANALYSIS, COST CLAIM, ETC

- Contract management & monitoring experts would be part of team AVLLP. They will ensure project progress is reported in line with the provisions of the contract.
- Through our associate, ARCHEUS LAW, we would carry out legal advisory & handholding of the project right through the execution to protect client interest from legal and contract point of view.
- Progress reporting on daily, weekly and monthly basis shall be ensured in our defined formats bringing total clarity of different aspects of the project progress.
- All lesson-learnt would be suitably captured for benefits in subsequent projects.
- Contract and Project departments would identify the associated risks in the project. These would be identified early, and corrective & protective actions would be taken to avoid its impact at the later stages of the project in terms of delay or cost increase.
- Mitigation plans would be prepared for client's attention for advance actions.

4. PROJECT COMMERCIALS (BILLING BREAKUP, CASHFLOW MANAGEMENT)

- Billing Break-Up would be prepared in detail to ensure judicious cash-in flow considering progress of the project. Billable items are broken up in sufficient section to ensure cashout of the project remains front-loaded as much as possible.

- Considering the Billing break-up and the L2/L3 schedule, cashout projection is prepared for working capital projection for advance planning of funds in order to avoid delays due to funds.

- To ensure bank-guarantees are available till commissioning and handover

5. PROJECT DESIGN & ENGINEERING

- AVLLP will have engineering coordination team for close coordination of engineering progress in order to ensure timely deliverables.
- With Consultant and Contractor engineering team a system of close coordination is planned to be developed to ensure RFCs and Drawings for release of further manufacturing clearances are released as per schedule.
- Design & engineering coordination procedure SOP would be prepared to ensure all approvals of engineering documents follow the schedule.
- Master Drawing List (MDL) judicious preparation to ensure proper and timely flow of deliverables.
- Assistance in selection of Engineering Consultant for detail engineering.
- AVLLP would engage its own associated Engineering Consultant, as needed, for scrutiny of key aspects of project designed and engineered documents.

6. PROJECT PROCUREMENT RELATED ACTIONS

- Assistance in finalization of packaging philosophy to prepare the list of packages to be awarded for completing the project and the interface & integration mechanism.
- Assistance in preparation of Techno-commercial RFQ for generating enquiry to the package vendors and sub-contractors.
- Finalization of best suited list of vendors & subcontractors in terms of capability, experience and competitiveness.
- For some of the packages AVLLP is tied up with certain vendors. These vendors are qualified and offer highly competitive prices.
- AVLLP through its linked investors supports them in cashflow, in turn commanding competitive prices. Right to Refusal may be extended to these vendors to draw very specific advantages.
- Close coordination with awarded vendors & subcontractors for timely execution in terms of Engineering, schedules, award for material supplies, construction progress, etc for timely execution.

7. INSPECTION AND QUALITY ASSURANCE

- Judicious categorization of Quality plans.
- Assistance in development of quality plans of different categories with client checks.
- Engagement assistance to finalize third-party inspectors for thorough checking and inspections for timely clearances to ensure supplies on time.
- SOP for the above and monitoring of quality plans, inspections, clearances and dispatch for close monitoring.

8. CONSTRUCTION MONITORING AND ERECTION MANAGEMENT

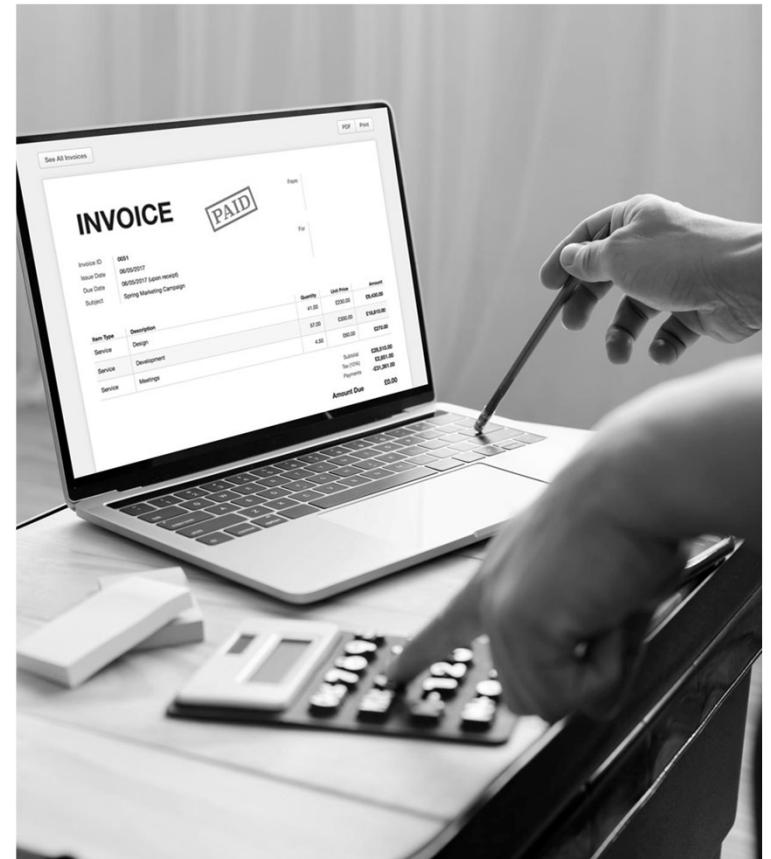

- SOP for close monitoring of civil construction and erection works shall be prepared to be followed by all.
- Close monitoring of site mobilization by all contractors to ensure work start as per schedule. Equipment and manpower mobilization will be controlled.
- Site progress reporting protocol would be prepared for daily reporting..
- There would be people at site for package-wise monitoring of progress and feed to the head-office for proper monitoring and control.
- HSE compliance and safety assurance would be taken up on highest priority to ensure all labor law compliances during execution.

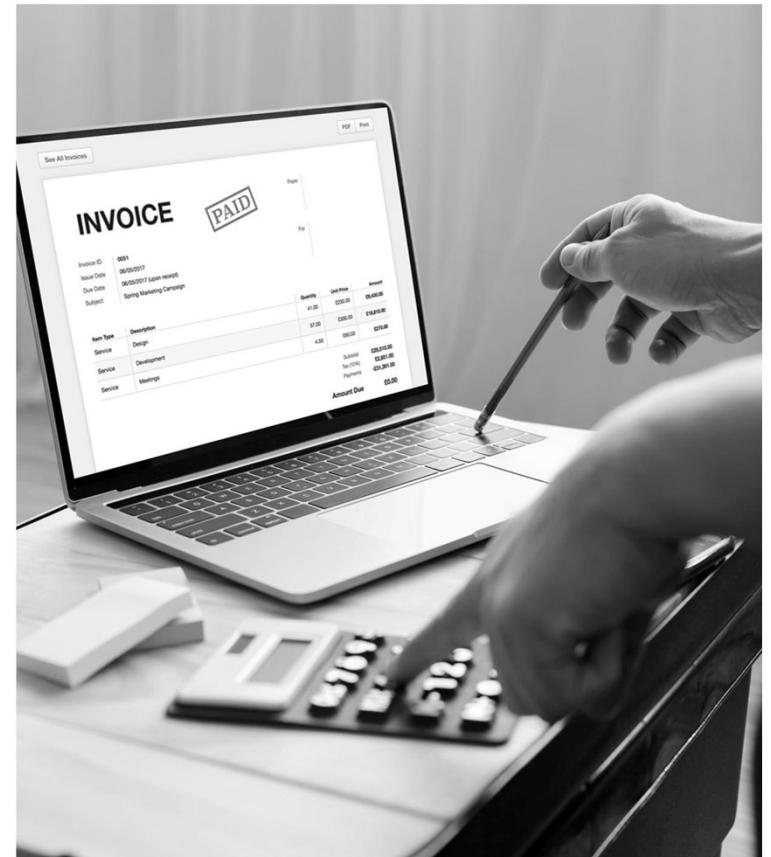

9. HSE COMPLIANCES MANAGEMENT

- Considering Health, Environment and Safety (HSE) compliances for overall protection of human force, they form the most priority area of site management.
- Elaborative SOP and Protocol would be set up to be followed by all including client executives, Contractor executives and all labor force for overall compliance.
- NCR, if any, would be elaborately tracked and reported for ensuring immediate compliances and further penalty mechanism to be developed for intentional non-adherence.
- Special incentive drive mechanism to be established for compliances as motivation.
- Labour law compliances would be ensured.

10. TIMELY COLLECTION OF PAYMENT FROM OWNER

- Creating SOP for strict adherence to ensure timely payment realization from client.
- Elaborative SOP and Protocol would be set up to be followed by all including client executives, Contractor executives and all labor force for overall compliance.
- Timely approval of drawings, timely inspections to ensure MDCCs & MRCs and timely site work certifications to ensure work & supply progress billing is done well in time.
- Special arrangements and close monitoring with the owner to ensure timely release of payments.
- Addressing payment concerns in progress reports to ensure cash-in doesn't get substantially affected at any time as proper cashflow along will ensure timely execution of work.

Key pivotal points monitoring for smooth execution adding full value to the stakeholders

10. TIMELY COLLECTION OF PAYMENT FROM OWNER... CONTD..

01

Planning & scheduling (Aggressive Internal targets to ensure external targets are achieved.)

02

Timely availability of Engineering deliverables as approved documents for RFC and Manufacturing clearance

03

Construction work certification to raise invoices as per schedule of cashflow.

04

Negotiated order placement on the subcontractors with well-defined scope.

05

Quality plan and inspection for timely deliveries

06

Supply MDCC & MRC for timely billing to achieve monthly targets

07

Monthly billing targets monitoring to achieve.

08

Timely payment collection from client.

09

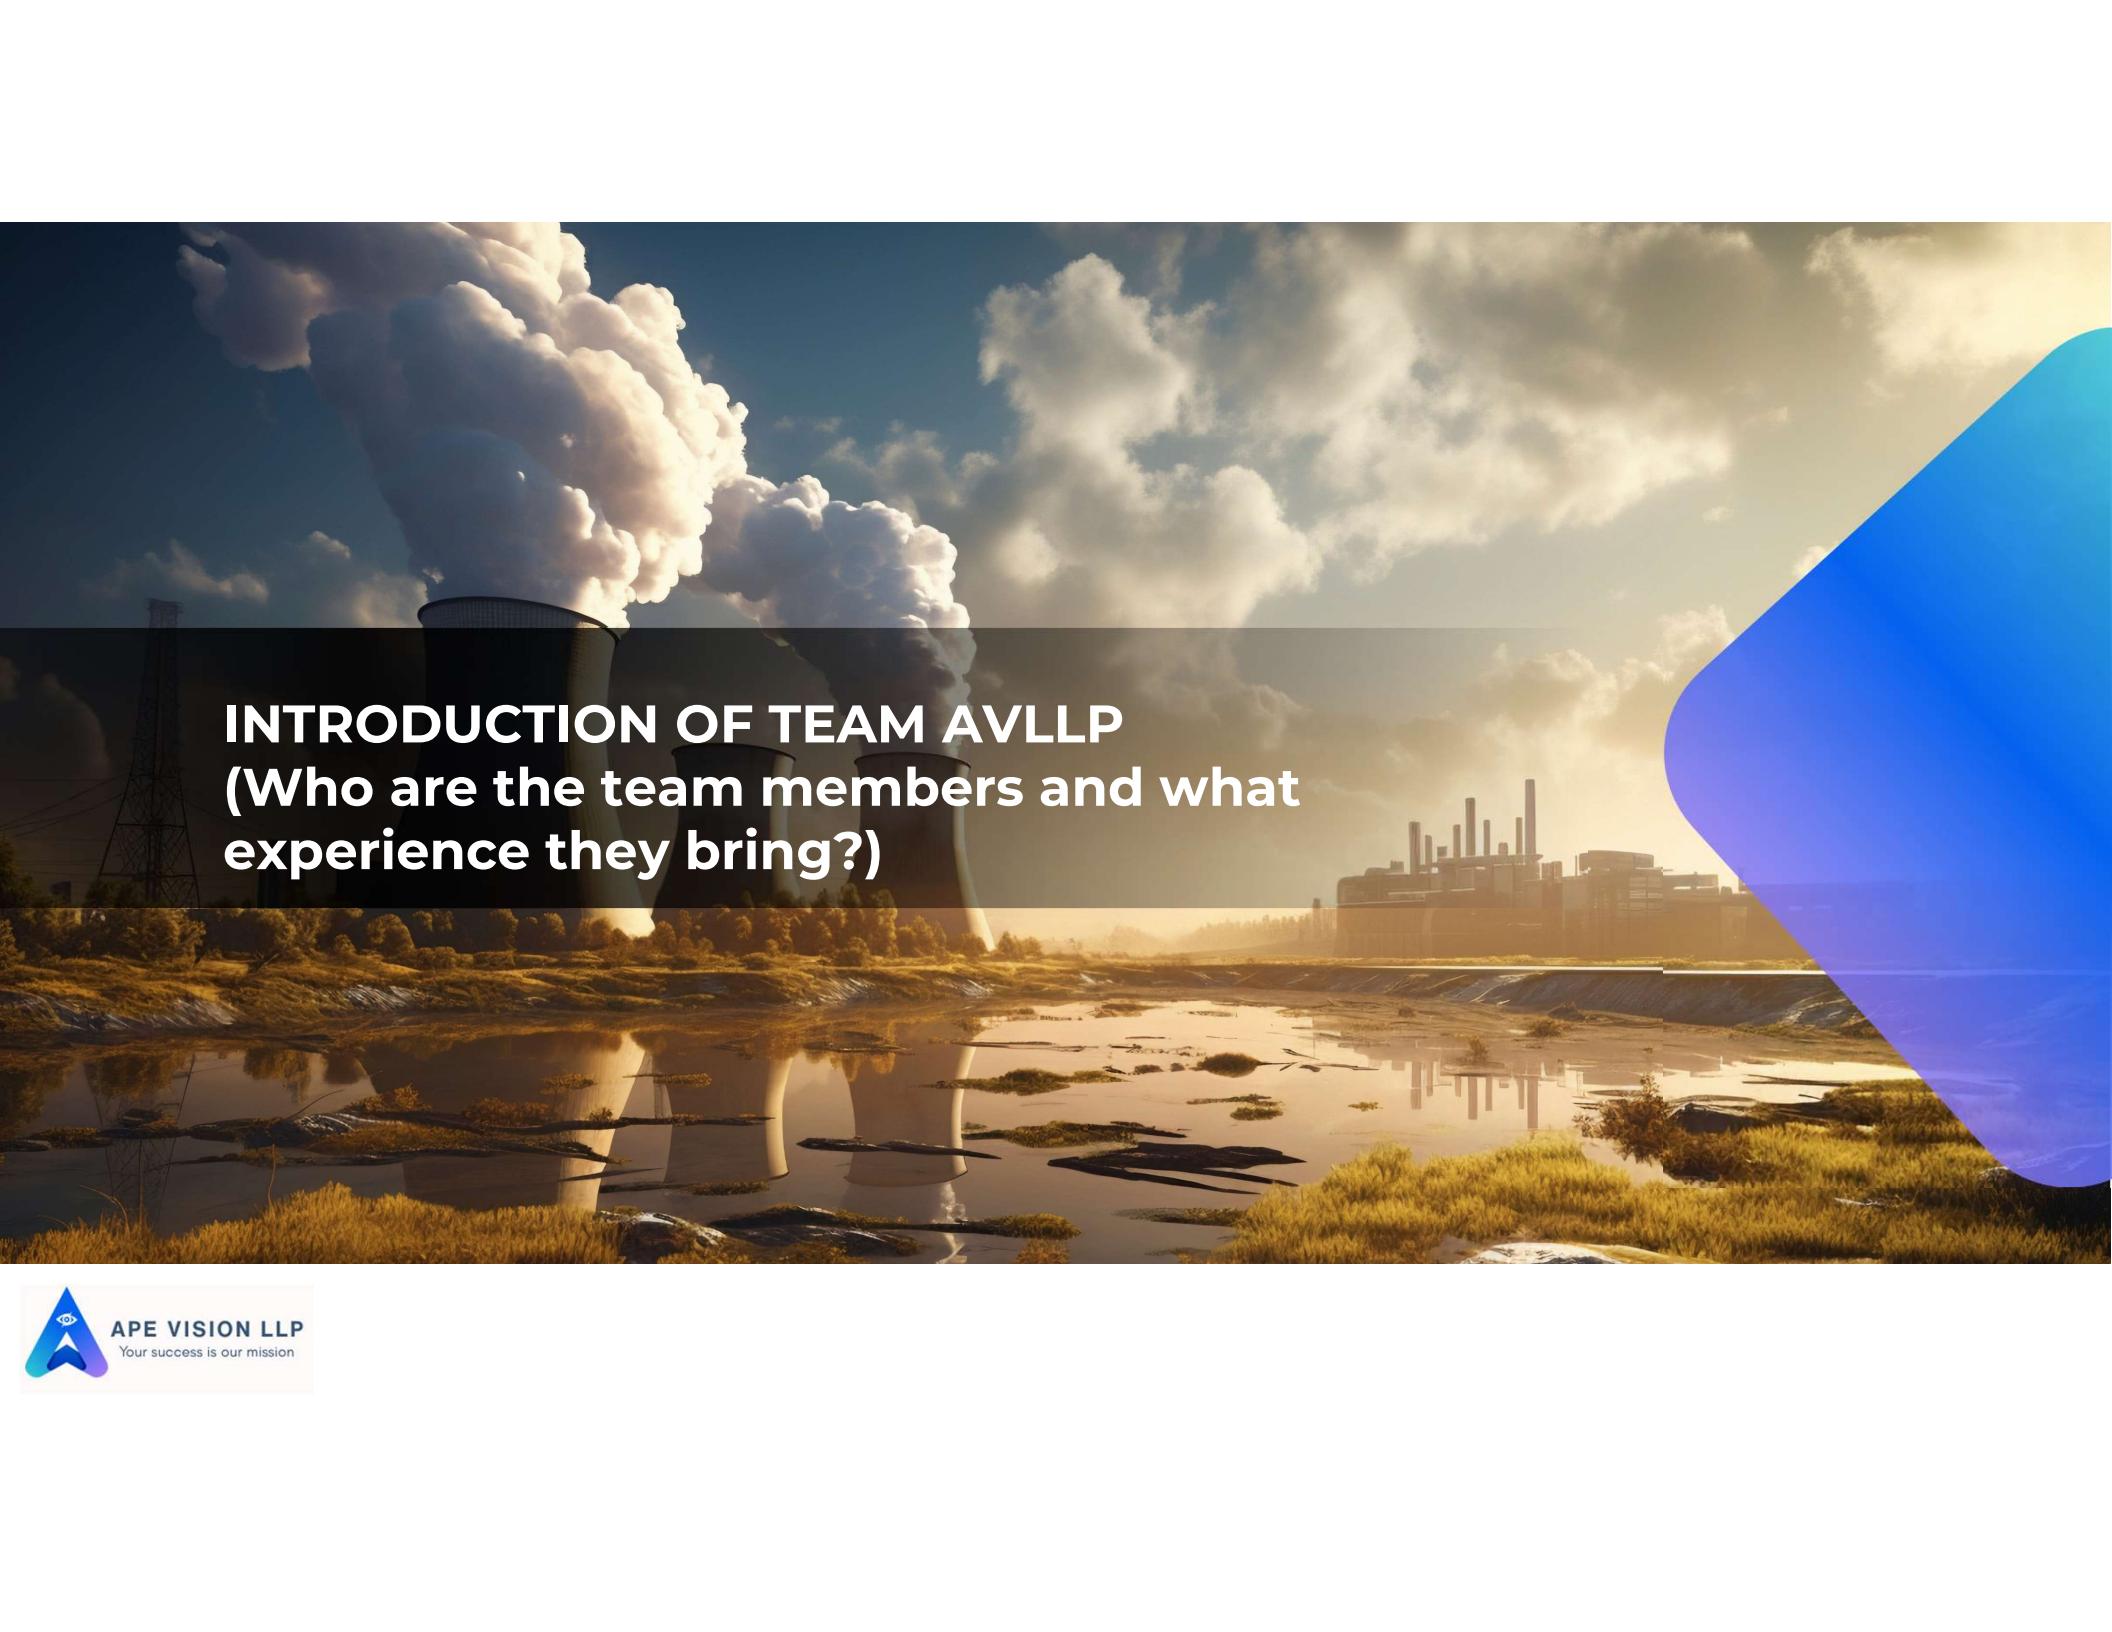

System-wise commissioning and PG test for balance (retention)payment collection

Above closely monitored actions would ensure payments are collected timely and schedule is adhered to protect from any LD.

11. COMMISSIONING & PG TEST RELATED MATTERS MANAGEMENT

- Commissioning-SOP of Equipment commissioning, Sub-systems commissioning, System pre-commissioning, Commissioning, and PG test would be prepared.
- Exhaustive Field quality plan (FQP) would be prepared and integrated with the SOP of commissioning.
- Protocols for all such equipment, pre-commissioning, Commissioning and PG test shall be prepared and compliance ensured.
- Site erection and commissioning events would be recorded in full detail as record register of the site progress.
- PG Test procedure as per IS codes and specifications would be prepared and thoroughly examined and ensured while conducting them.
- Performance protocol to be monitored during the warranty period would be prepared to be followed by the contractors.
- Spares list to be prepared, and availability ensured during commissioning and mandatory spares during warranty period with recommended spares list with rates finalization.

INTRODUCTION OF TEAM AVLLP

(Who are the team members and what experience they bring?)

ABOUT TEAM COMPOSITION

- Organization chart considering the scope would be prepared for clarity of understanding in order to take up the overall assignment.

- CV of the key personnel as per the Organization chart would be shared for reference as needed. They have the relevant experience of executing such assignments in plenty in the past in different roles as full or as part

- Senior management would be employed by AVLLP who would control the proceedings and be responsible on behalf of the client.

- All other junior staffs and supervision staffs would be hired through Third party human resource supplier agency. Requirements for overall staffs would be prepared by AVLLP and approval obtained from DRAIPL. These would be hired through agreement reached with the Human resource supplier agency on a rate contract basis. They will be hired for the fixed and exact tenure to avoid wastage .

ABOUT TEAM COMPOSITION - FOUNDER

Sujit Shankar is the Managing Director of AVLLP, having industry experience of more than 35 years in different capacities. Educational background and experience is briefly listed as under,

- B.Tech engineering
- Management from IIM Calcutta
- Project management specialization from IIT Delhi
- Start of the professional career in Consulting house, **DCPL & DCIPS** for 15 years. Got engineering and Project management experience in many industries including Power, MHS, Fertilizer, Cement, Steel, etc
- Moved over to **Reliance Infrastructure**. Executed Full Power Plant on **EPC** basis in **DVC Raghunahpur (2x600MW)** project and part of the team in Sasan **Ultra mega project** etc. from **2006 to 2009**.
- **Deputation by Reliance as CEO in Creative Ashtech Projects** to execute BOP & its packages (2009 to 2014)
- Moved over to **Punj Lloyd to handle Overseas EPC projects** (2014 to 2018)
- By 2018 the focus from conventional power plants shifted to renewables and environment control like FGD. Served different organizations in this field since then by providing consultancy.

ABOUT TEAM

Engineers from different disciplines are associated with us with very extensive experience.

They are from Central PSUs, State PSUs, and the Private Power sector.

Some of the key persons are,

- **SUJIT SHANKAR**, MORE THAN 34 YEARS EXPERIENCE.
- **HARDEV SINGH SIDHU**, MORE THAN 25 YEARS EXPERIENCE.
- **RAJAT MEHDIRATTA**, MORE THAN 32 YEARS EXPERIENCE
- **PRIYABRAT KUMAR**, MORE THAN 22 YEARS EXPERIENCE.
- **AJIT KUMAR TEWARY**, MORE THAN 37 YEARS EXPERIENCE.
- **ARBIND RAI**, MORE THAN 24 YEARS EXPERIENCE.
- **MUKUL DAS**, MORE THAN 33 YEARS EXPERIENCE AND MANY OTHERS.

TEAM EXPERIENCE

AVLLP Team Comprises Of Team Members Having extensive experience In Executing Large Size **Power Projects From Concept To Commissioning Including Balance Of Plant.**

01

DVC Raghunathpur,
2x600MW Power Project,
Rosa 4x300MW TPS, etc

02

Sasan Ultra-mega thermal
power project, 6x660MW

03

Jawaharpur, Obra TPS, etc

04

Amarkantak, Udupi, etc
Thermal Power projects

05

Different NTPC projects and its
packages.

06

Different FGD projects in the
country

TEAM EXPERIENCE

AVLLP Team Comprises Of Team Members (**Archeus Law**) having extensive experience in Contract-legal services in different industries in India and global,

Archeus Law offers specialized services in diverse industry sectors, such as:

1. Conventional and Renewable Energy;
2. Public Utility Infrastructure, such as Highways, Bridges, Ports, Logistic Parks and Health Infrastructure;
3. Urban Development Infrastructure, such as Smart Cities, Metro Rail, Rapid Transit Systems and City Sewage Strategic Tunneling Projects;
4. Engineering and Machinery,
5. Industrial and Manufacturing;
6. Metals and Mining;
7. FinTech;
8. Regulatory and Corporate Governance.

FEW OF THE CORE TEAM MEMBERS

**Sujit
Shankar**

Managing Director

**Hardev
Singh Sidhu**

Partner in Business

**Priyabrat
Kumar**

Partner in Business

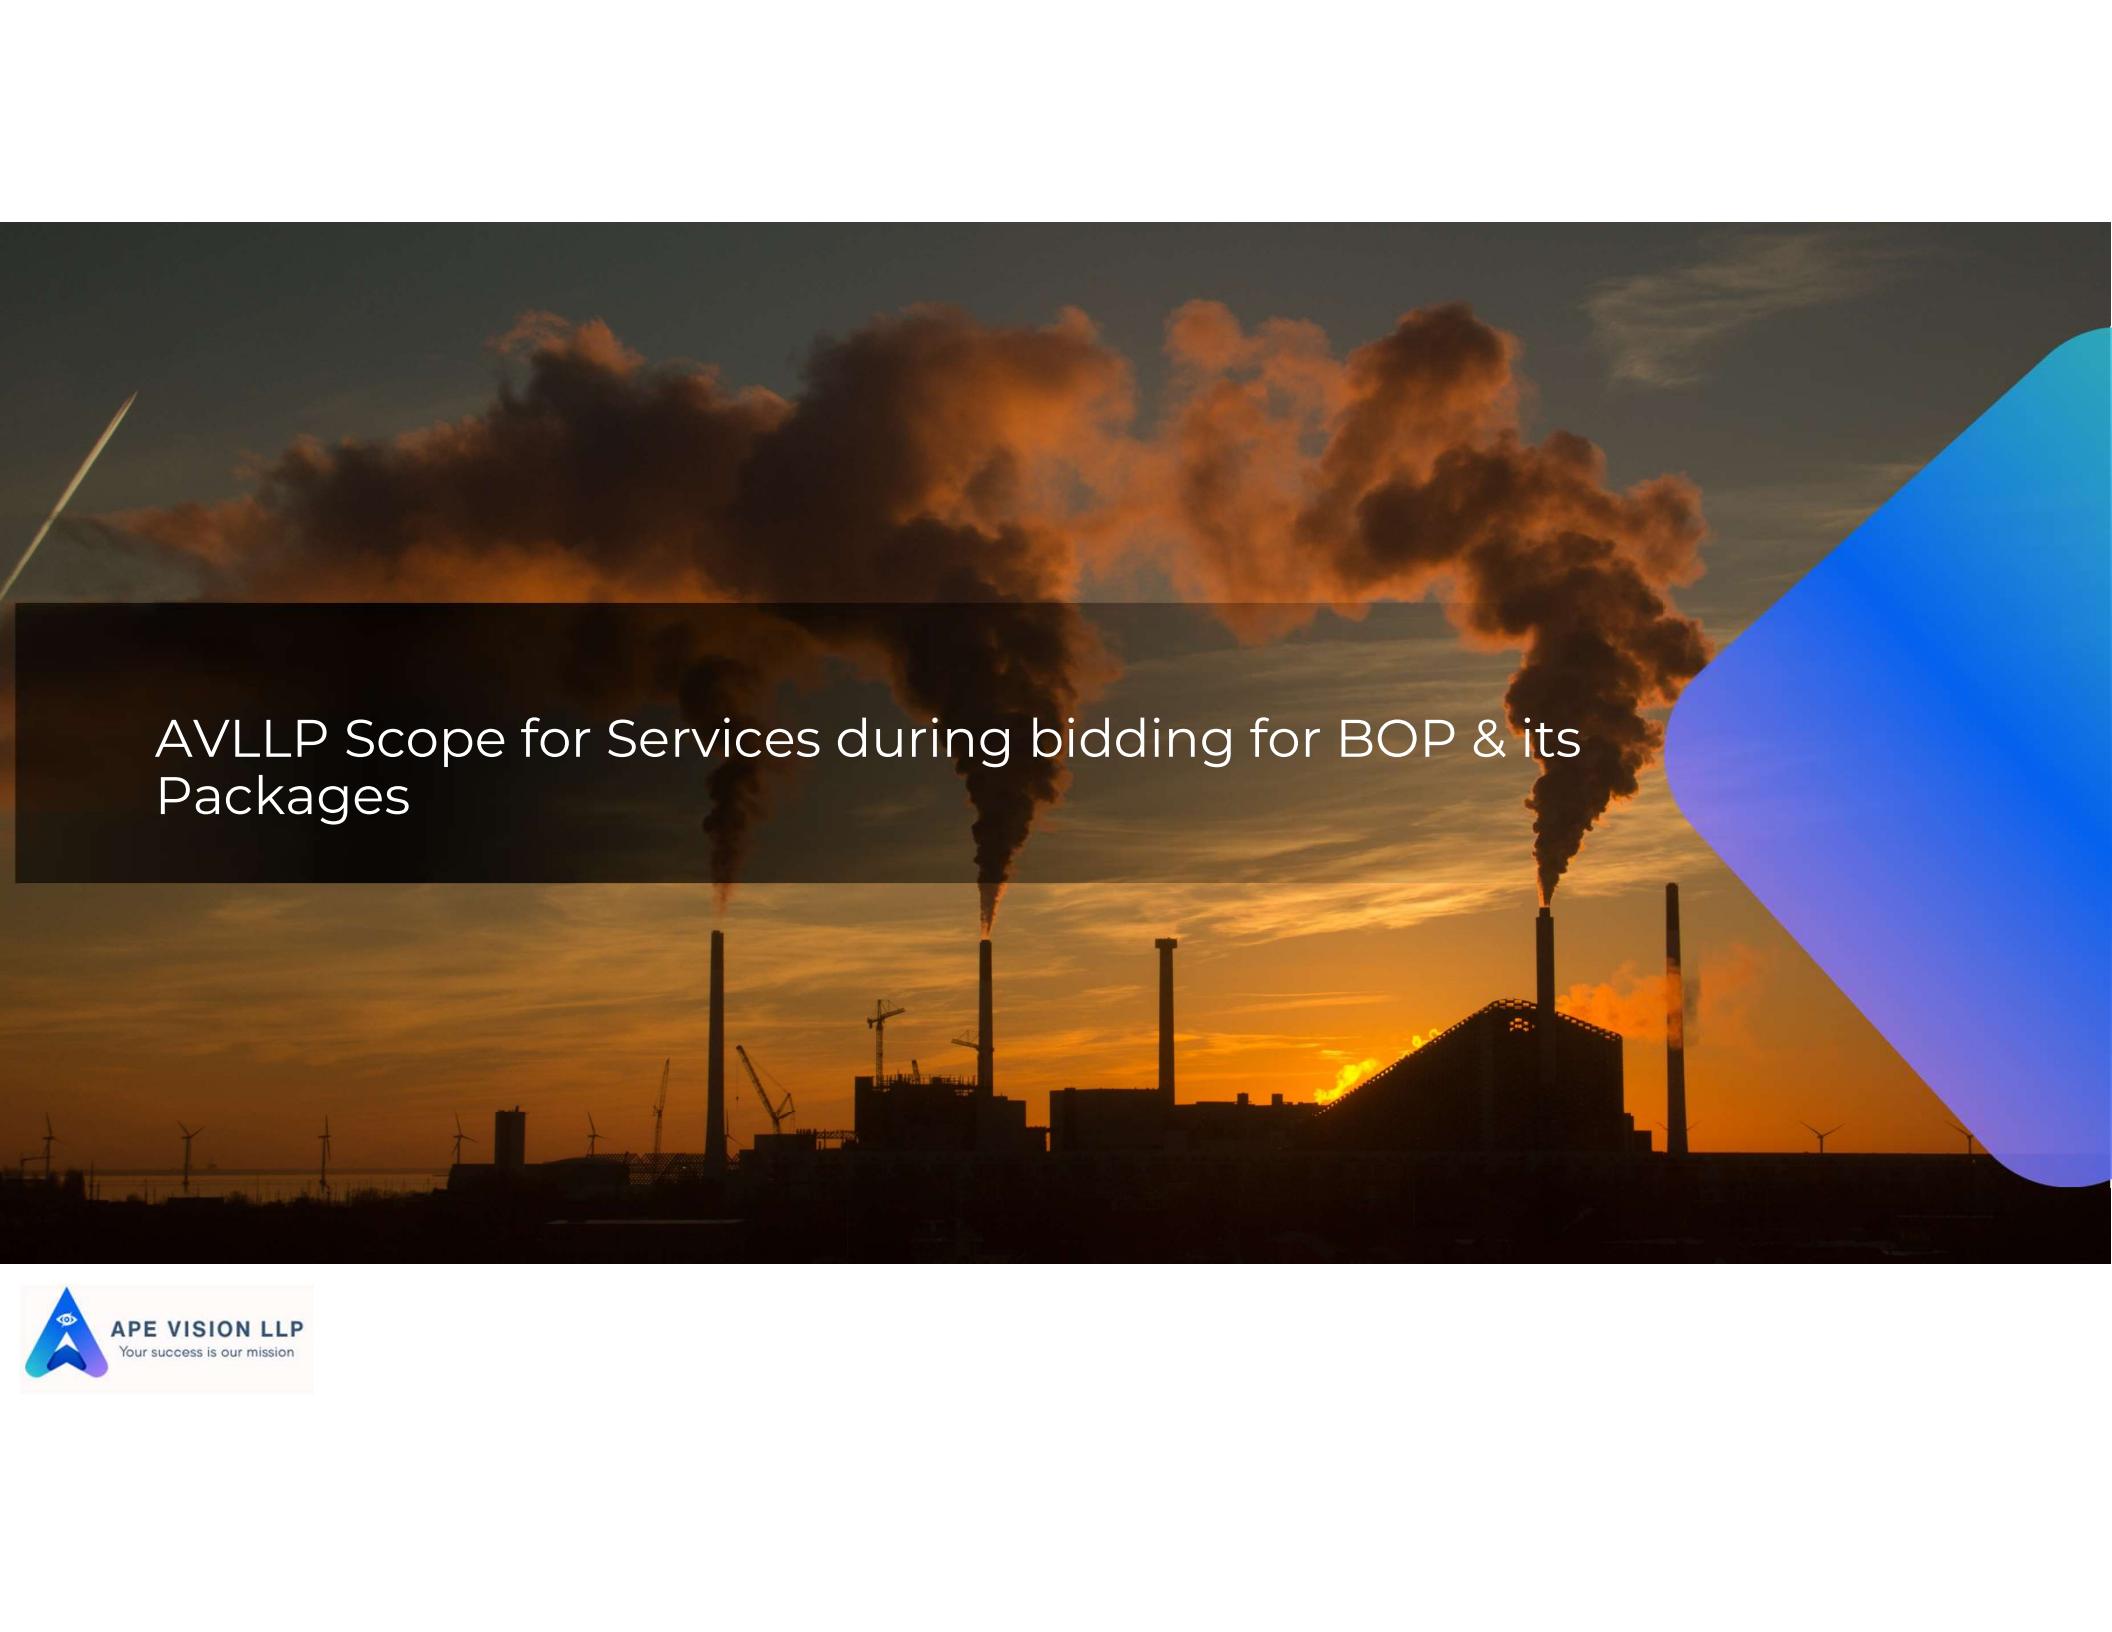

**Rajat
Mehdiratta**

Partner in Business

**Ajit Kumar
Tewary**

Partner in Business

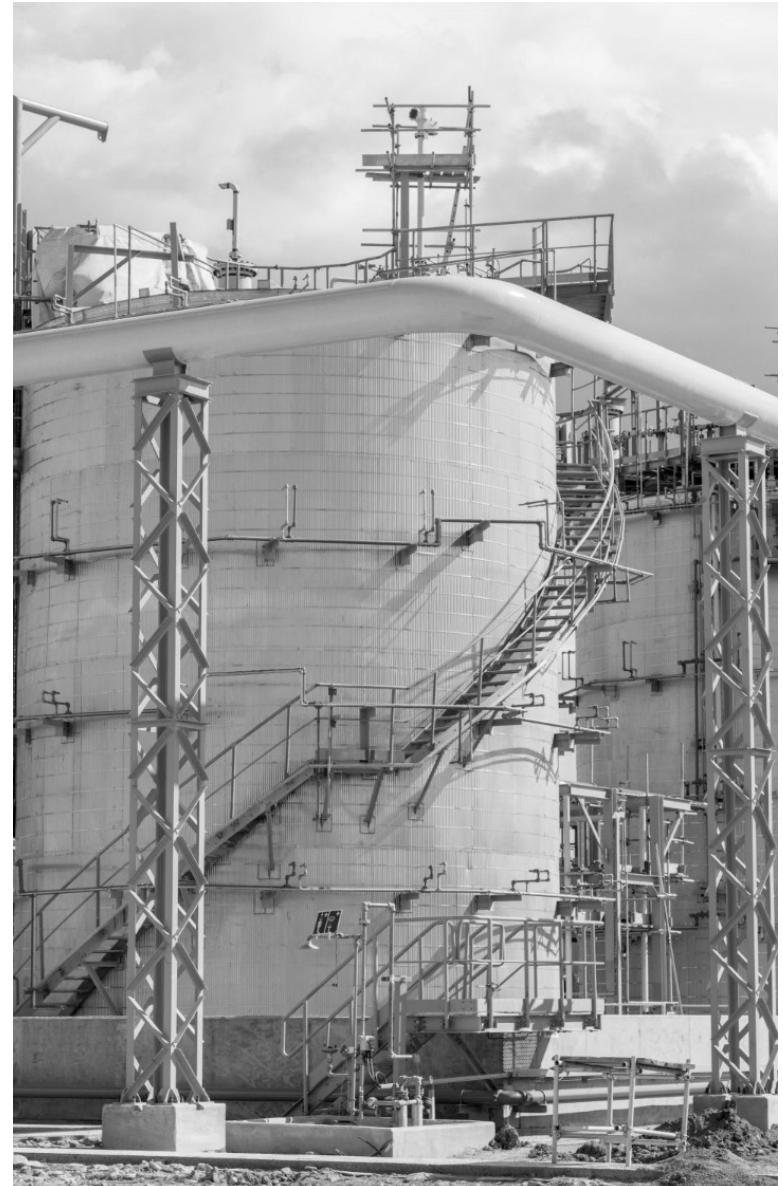

A photograph of an industrial facility at sunset. Several tall smokestacks are silhouetted against a vibrant orange and yellow sky. Large plumes of dark smoke or steam rise from the stacks. In the foreground, there's a construction site with cranes and some wind turbines in the distance. A bright white streak from a passing airplane cuts across the upper left of the image. The overall atmosphere is one of heavy industry and environmental impact.

AVLLP Scope for Services during bidding for BOP & its Packages

BOP PACKAGE COMPONENTS

- | | |
|--|---|
| <input type="checkbox"/> Coal Handling Plant (CHP) | <input type="checkbox"/> Auxiliary Power System |
| <input type="checkbox"/> Ash Handling System (AHS) | <input type="checkbox"/> HVAC & Ventilation |
| <input type="checkbox"/> Water Treatment Plant (WTP) | <input type="checkbox"/> Buildings and Infrastructure |
| <input type="checkbox"/> Cooling Towers | <input type="checkbox"/> Electricals |
| <input type="checkbox"/> Circulating Water System | <input type="checkbox"/> Control & Instrumentation |
| <input type="checkbox"/> Switchyard and Electrical Balance | <input type="checkbox"/> Ground improvement package |
| <input type="checkbox"/> Fire Protection System | <input type="checkbox"/> Civil works |
| | <input type="checkbox"/> Others |

AVLLP AS PEMS-CLA

Apart from taking up **PEMS-CLA** of the whole project, we take detailed supervision of EPC work of all the packages.

Packages where we are tied up through agreements with different experienced and qualified contractors for execution of the works are,

01

Water reservoir package

02

Ash dyke package

03

Supply of fabricated and bolted steel structure for different requirements of the plant

04

Chimney package

05

Ground improvement, Stone column & piling, package

06

Civil works

07

Fire fighting system package

08

LP piping package

09

Fuel oil handling package

 For all other packages we have all the data and experience to extend full support for careful and competitive order placements like,

01
Coal Handling Plant

02
Ash Handling Plant

03
Cooling towers

04
Electrical system

05
Water systems

06
Control &
Instrumentation
including DCS / PLC

07
Mill Reject
Handling System

08
Others

AVLLP AS PEMS-CLA

 **AVLLP** will ensure that highly competitive prices are quoted and agreed by the package suppliers.

 **AVLLP** will ensure that all functional guarantees are provided by the package supplier companies through BGs, etc.

APE VISION LLP
Your success is our mission

AVLLP will support them to handle the cashflow by external funding to ensure projects are delivered on time.

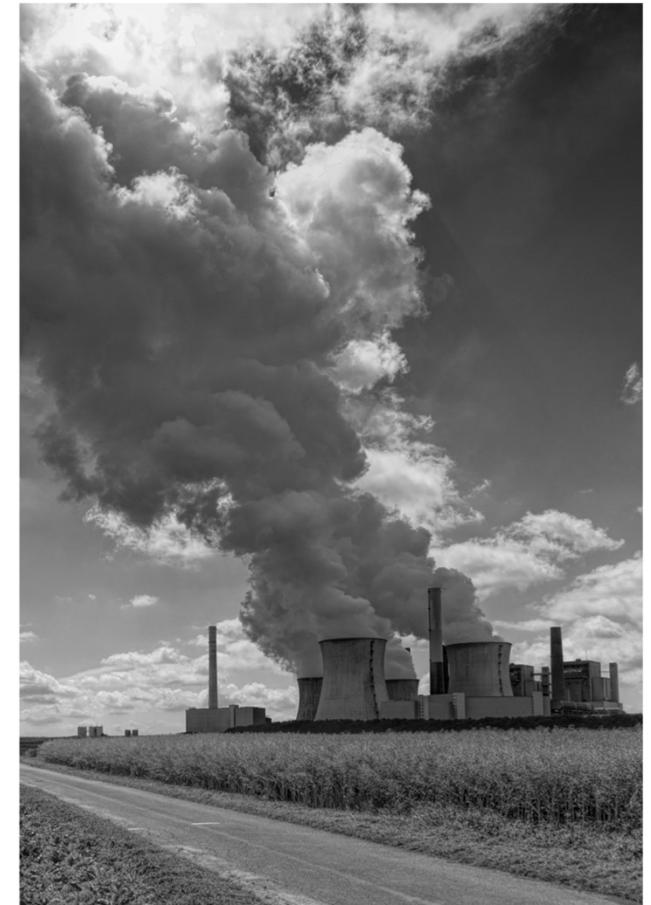

AVLLP has tied up with engineering consultants to carry out detail engineering, perform checks and ensure optimized design.

AVLLP will also prepare the schedule for timely execution and control the progress throughout the execution.

AVLLP will have its own engineering coordination team to ensure the above

AVLLP AS PEMS-CLA

AVLLP Scope for FGD bidding & Project execution/
management services and other projects

AVLLP Scope for FGD bidding & Project execution/ management services

AVLLP
AS FGD bidding
& PEMS-CLA

01 Management of PQR by associations, back-to-back with qualified bidders, etc	02 Technical partner management. Signing of PBA, DOW, DJU & TTA	03 Complete bid preparation Consistency check with tender
04 Pre-bid engineering, post-award execution and total execution	05 Procurement assistance during execution	06 MDL, L2 schedule, Biling breakup, Cashflow for working capital, costing, indirect cost, etc
07 Quality & Inspection management	08 Construction management	09 Testing & Commissioning services

AVLLP
PEMS-CLA in
other projects of
Water systems,
Infrastructure,
Environment
control related,
etc

AVLLP Scope for Project execution/ management services for other business projects

01 In Jaljeevan Mission projects	02 In Water lifting for Irrigation projects	03 In Renewable power projects like Solar, Wind, Hybrid, Hydro, etc
04 In MSW Solution systems & WtE	05 In Combined cycle projects	06 In other industrial projects
07 In Fertilizer plant projects	08 In Cement plants	09 In Oil & Gas projects of onshore

AVLLP ASSOCIATE COMPANIES

(Who are our partners in growth and execution?)

APE VISION LLP
Your success is our mission

ASSOCIATE FOR CONTRACT & LEGAL SERVICES

AVLLP

Is tied-up with

ARCHEUS LAW

For

**All kinds of Contract-
Legal services for
handholding of the
project, as listed, and
beyond**

**spearheaded by its
Managing Partner Mr.
Ranjit Prakash.**

- 1. INDUSTRY SECTOR WORKS
- 2. FRONT-END PROJECT ADVISORY WORK
- 3. BACK-END REPRESENTATION, ADVOCACY & TRIBUNAL WORK
- 4. AS EXTERNAL LEGAL CONSULTANTS IN THE EPC SPACE

STAGE 1: PRE-CONTRACT

STAGE 2: DURING THE TERM OF THE CONTRACT

STAGE 3: POST-EXECUTION

ASSOCIATE FOR BUSINESS DEVELOPMENT & LIAISONING SERVICES

AVLLP
and
MIPL
(MOTIVE
INFRAPROJECTS
PRIVATE LIMITED)
Are Business
Associates
For
Many Years
To Handle
different critical
aspects of the
Project

01

The **MIPL** association is critical for **AVLLP** in delivering its responsibilities.

02

MIPL, led by its Chairman **Mr. Hardev Singh Sidhu**, has an immense presence in the industry and gives substantial strength in Business Development, execution, arranging funds, close monitoring and coordination in order to bag new orders, liaisoning, etc.

03

Performing the functions as elaborated to deliver the Project Management Consultancy (**PMC**) requirements for timely payment receipt from client, etc and in bagging new **BOP**, **FGD** or similar work orders is achieved in close coordination between these two organizations.

APE VISION LLP
Your success is our mission

ASSOCIATE FOR ENGINEERING SUPPORT SERVICES

AVLLP
IS TIED UP WITH
ENGINEERING
CONSULTANTS
FOR
OPTIMIZATION
ENGINEERING AND
ENGINEERING
CORDINATION
WITH VALUE
ADDITIONS

01

Invictus
Consultants.

02

Greenfra
Engineering

03

Consulting
Engineering
Services, etc

ASSOCIATES FOR EXECUTION OF DIFFERENT BOP PACKAGES ON VERY COMPETITIVE PRICES

- Water reservoir package – M/S JDNS
- Earthwork, Civil works for CW piping, Ash handling system, etc packages M/S JDNS
- Ash dyke package – M/S JDNS
- Fabrication and erection of supporting structures of Coal handling system and other packages – Many fabrication companies are tied up.
- Ground improvement package (Stone column & piling) – Bhukar Infra and ITD
- Fuel Oil handling system package – M/s Agnice
- LP piping package – M/s Agnice.
- Fire-fighting system package – M/s Agnice.
- Material handling system packages - Encore
- Civil & Other engineering Consultant – M/s Invictus Consultancy services and Greenfra engg
- Mechanical and Electrical & CI engineering – Greenfra.
- Coal & Ash handling packages – MecGale, Indiana

With Right to Refusal, these qualified associates extend very special rates for executing packages.

FEES THROUGH SIGNING OF RELEVANT AGREEMENTS

POST-AWARD PEMS-CLA FOR BOP – Fees as per finalized scope, negotiable after submission of commercial proposal

PRE-BID FOR BID PREPARATION SUPPORT – Fees as per finalized scope, negotiable post submission of proposal of BOP

PRE-BID FOR BID PREPARATION SUPPORT – Fees as per finalized scope, negotiable post submission of proposal of FGD

POST-AWARD PEMS-CLA FOR FGD – Fees as per finalized scope, negotiable after submission of commercial proposal

PRE-BID SERVICES FOR ASSOCIATIONS OF EPC BIDDER WITH TECHNOLOGY PARTNER OF FGD – Fees as per finalized scope.

LIAISONING AGREEMENT WITH AGENCY FOR BUSINESS DEVELOPMENT AND SECURING AWARD

AGREEMENT TO BE REACHED AND SUPPORT
NEEDED TO FINALIZE ASSOCIATION

APE VISION LLP
